# Structure

The WebCommerce page is structured in three parts:

## 1. Header:

The logo on the left is made up of a rectangle blue, the word BLOG and an icon of a gear that we will obtain from the websymbols source.

Compuesta the **navigation bar** in which there will be a menu on the right with the following links to different sections of the web: HOME, BLOG, TRAINING, CONTACT.

## 2. Body:

**Main banner:** Text: WEB DEVELOPMENT COURSE with background image in the path “.resources / img / bakbaner.png”

**Content:** blocksDifferent content blocks that act as advertisements and links to take the user to the content in question . These blocks are made up of a websymbols icon, a title that will be h2 and a small descriptive text. These blocks are just below the main banner.

**Articles:** This section is composed of an h2 title that announces the published articles which are in turn composed of a title, a date and category and the text, all in the form of a block.

### Right side menu:

We will find different components presented by h3 titles

First we have the search component formed by a text type input and a magnifying glass icon on the right

A login composed of a form with two inputs, one for the username and one for the password and two buttons, submit and clear, followed by two links, one for registration and one for password recovery.

Space for Social Networks composed of their respective icons, each one has an animation consisting of a: hover, which shows the name of the RRSS when we position ourselves on it with the mouse.

Last component to announce collaborators.

At the end of the body we will find an animated link that will take us to the blog section. This link shows the transformation animation when we hover over it with the pointer. Change the rectangular shape to round the edges, apply a text-shadow, and randomly change the edge colors.

### 3. Footer:

**Blocks:** It is distributed in 5 blocks announced by an h5 title each.

**Block 1:** Composition of links as in the browser menu.

**Block 2:** Google Map embedded in an iframe.

**Block 3:** Technology used, showing the html5 image in the path "resources / img / html5.png.

**Block 4:** Supported engines with their respective images.

**Block 5:** The author.

## CURSO DE DESARROLLO WEB
